AND OKANAGAN ORCHARDIST

VOLUME 31

Kelowna, British Columbia, Thursday, October 11th, 1934

NUMBER 10

BEST CONTROL MEASURE IS QUARANTINE

Dr. Ootmar Deprecates Restrictions On Travel To And From Well Quarantined Areas

To clear up several points not readily understood by the layman in connection with quarantine for infantile paralysis, particularly with regard to inter-city travel when the malady prevails, a Courier representative interviewed Dr. G. A. Ootmar, City and District Medical Health Officer, on the subject on Saturday morning, when the doctor welcomed the opportunity to straighten out any misunderstandings that have arisen since the quarantine was imposed a few weeks ago.

Asked why other cities should prohibit travel to and from Kelowna when this city was in quarantine, Dr. Ootmar declared that it was not a good move as a town in strict quarantine was absolutely safe for visitors from other points and it was equally as safe for citizens of the quarantined city to travel to other centres.

Illustrating his point, he said: "Assume that there is a good inspection of foodstuffs going out of the district and that codling moth or disease of some kind is found in some orchards. Nothing for human consumption may leave these orchards. Then the reasonable attitude for outside buyers to take is that they can continue to buy apples from Kelowna because the inspection is good. They could hardly be expected to say that they would not buy from Kelowna because disease has been found here, but that is the trouble with quarantine because the layman does not understand it. The town strictly quarantined is absolutely safe."

"Travel from cities in the States where there were cases of infantile paralysis but no quarantine had to be watched," the Medical Officer explained, "but this would not have been necessary if the cities from which the travellers came had been properly quarantined, in which case it would not have been a good move to shut them out or place them in quarantine on arrival here."

Dr. Ootmar regretted that these points were not more generally understood as undue hardship was placed upon people from a well quarantined city.

"Indeed," he declared, "Kelowna was the safest place in the Interior for any traveller because quarantine measures had already been taken as early as July, when the first case occurred in Spokane. I cannot stress too strongly the advantages of a strict quarantine."

Dr. Ootmar issued the following statement to the press yesterday on the situation to date:

"Soon all quarantine will be lifted, and Kelowna will be free of infantile paralysis. It is my sincere wish to thank you for keeping quarantine so well. It has created a hardship on many, but no other way could have been so efficient to safeguard town and district. I again thank you all very much."

"Kelowna now free—this does not mean that there is no longer any danger. Our first case came from an American, and what happened in the beginning of September, when he arrived, may happen again any time when people from cities where the disease is prevailing, AND WHERE NO STRICT QUARANTINE IS IN FORCE, come to Kelowna."

"May I ask your co-operation again? Please inform the police or myself when any visitor comes from infected places. It will depend on the measures in that area if he will be quarantined or not. Perhaps it will take months before all is quiet; however, with your co-operation, no fresh case will occur here and the quarantine will not have to be repeated."

"It is impossible to thank all those who co-operated so splendidly. I will not start thanking the City Council, School Board, doctors, Matron of the Hospital, my assistant, etc., as it would be too long a list. There are those, however, I wish to especially thank and these are our DONORS. To you grown ups and children who so willingly gave your blood, our very special thanks are due, and without doubt the parents of the children who survived will not only thank you too but bless the unknown donor whose serum saved the life of their child."

BUCHAREST, Oct. 11.—King Carol of Roumania has cancelled his proposed visit to Paris early in November.

VICTORIOUS ORILLIANS WILL INVADE B.C.

BARRIE, Ont., Oct. 11.—Jubilant over bringing to Orillia the Mann Cup, emblematic of the lacrosse championship of Canada, the Terriers prepared today to travel to British Columbia in order to show the home country of the New Westminster Salmonbellies a sample of eastern net craft.

Orillia's young team harpooned the Salmonbellies for the third straight time here last night, 13 to 6, to end the title series.

O.-C. TRAIL PRESIDENT MOVES TO SEATTLE

Mr. Ray W. Clark Takes Over Management Of Big Hotel In Coast City

Mr. Ray W. Clark, well known throughout the Okanagan as the enthusiastic President of the Okanagan-Cariboo Trail Association, has received well deserved promotion in his chosen life work, having been appointed as manager of the large New Washington Hotel at Seattle.

Mr. Clark has been manager of the Cascadian Hotel at Wenatchee for the past five years since it was opened. Previously he had been associated with hotels in Portland, Oregon, Olympia, Roseburg and for four years at the Winthrop Hotel at Tacoma. He made such a conspicuous success of the Cascadian that he attracted the attention of the owners of the New Washington Hotel, who insisted upon the shareholders of the Cascadian agreeing to his transfer to the Coast, to which the latter gave a very reluctant consent.

Mr. Frank A. Dupar, President of the West Coast Hotel Company, who flew from Seattle to Wenatchee to arrange the transfer, stated: "We were reluctant to take Mr. Clark from Wenatchee, but on the other hand we felt that he had earned the opportunity in a larger field. The New Washington is nationally known and it affords Mr. Clark a wider field of achievement."

During his residence in Wenatchee Mr. Clark associated himself actively with many public movements. In addition to his keen interest in the Okanagan-Cariboo Trail Association, he was Secretary-Treasurer of the Columbia River Development League, one of the leading factors in bringing about construction of the Grand Coulee dam, Vice-President of the Cascade-International Highway Association, Vice-President of the Good Roads Association, a director of the Alaska Highway Association, director of the Wenatchee Chamber of Commerce, President of the Chambers of Commerce of North Central Washington, Vice-President of the State Hotel Association, Secretary of the Chelan County Agricultural Association, and an active member of the National Aeronautical Association—surely a breath-taking list of offices!

Heartly appreciations of Mr. Clark's worth as a citizen and expressions of regret at losing him have been voiced by a number of prominent business men of Wenatchee, credit especially being given him by Mayor John S. Mooney for making Wenatchee the "convention city" of Eastern Washington. During the past five years his management of the Cascadian has brought scores of conventions to the city and has been the prime factor in obtaining them.

Mr. Clark takes over his new duties immediately, but he promises to make occasional visits to Wenatchee, and the Okanagan-Cariboo Trail can count upon retaining his sympathetic interest and loyal support.

COURT OF REVISION IS POSTPONED

Only Those Now On Voters' List Eligible To Ballot On Beer

The regular monthly Court of Revision of the Provincial Voters' List for the South Okanagan Electoral District, which ordinarily would have been held on Monday, October 15th, at the Government Office, has, on instructions from the Provincial Secretary, been adjourned for one week. This change was made necessary when the polling day for the beer plebiscite was changed from October 11th to October 18th, and it was found to be impracticable to alter the voters' list already prepared due to lack of time. Consequently, those who failed to apply to have their names added to the voters' list at the proper time will not be eligible to vote on the beer plebiscite.

STABILIZATION BOARD HAD LOW COSTS

Net Expenses Of Operation For Thirteen Months Slightly Under Half A Cent A Box

The total cost of operating the Okanagan Stabilization Board for a period of thirteen months, including expenditures on office equipment and all legal expenses, was \$23,041.11, or a cost per box of .65 cent, according to Manager M. V. McGuire, whose report on the operations of the Board from September 1st, 1933, to September 30th, 1934, was submitted at a special general meeting of the shippers' organization held in Vernon on Wednesday afternoon for the purpose of winding up the affairs of the Board.

Taking off the assets as detailed in the Auditors' Report—furniture, \$723.19—and litigation costs amounting to \$5,840.24, the net cost of operation amounts to \$16,477.68, or a cost per box of only .46 cent, less than half a cent a box. Legal expenses in connection with the Crestland Fruit Co., Ltd., case amounted to \$4,436.84, and levies not collected from this company and written off totalled \$1,775.89. Legal expenses also included the sum of \$1,090.72 involved in litigation with the Belgo and Hollywood Orchards (Casorso and Rowcliffe).

According to the financial statement prepared by Messrs. Crehan, Mount & Company, Auditors, total levies collected amounted to \$22,684.04. The liability to the bank, by way of overdraft as at September 30th, 1934, was \$327.07 in cheques issued but not presented.

Major McGuire opened his report with a review of the circumstances leading up to the formation of the Board, stating that the late date of organization necessitated very considerable (Continued on page 5)

DISAPPEARANCE OF YOUNG MAN IS MYSTERY

Charles M. Logan, Aged 23, Missing Since October 2nd

Information as to the whereabouts of Charles M. Logan, a young man of 23 years, is sought by the police. Logan, employed for the past two months by the Cascade Fruit Company, failed to report for work one morning early last week and has been missing since. He has been boarding with Mrs. Boake on Glenn Avenue, where most of his clothing was left.

Mystery surrounds his disappearance, particularly because he left his clothing at his boarding house. His board was paid up to date, and it is reported that a small balance in wages has not been collected from the packing house.

PRICES SET FOR WINTER APPLES

Many Varieties Released For Shipment—Jonathan Prices Lowered Ten Cents A Box

The following varieties of winter apples, given with the pool bases, were released for shipment on Monday by the Local Board.

Wagner, Baldwin, Ontario, Canada Baldwin, Fancy, 163 and larger: \$1.10; Cee, \$1; No. 3, 90c; loose, orchard run, \$30 ton.

Northwestern Spy, 163 and larger: Fancy, \$1.15; Cee, \$1.05; No. 3, 95c; loose, orchard run, \$32.50.

Rome Beauty, Spitzenberg, 163 and larger: Fancy, \$1.25; Cee, \$1.10; No. 3, 95c; loose, orchard run, \$35.

Golden Delicious, Extra Fancy, \$1.40; Fancy, 1.25; Cee, \$1.

Delicious, Extra Fancy, 96 to 150, \$1.40, 88 and larger, \$1.20; Fancy, 96 to 150, \$1.25, 88 and larger, \$1.10; Cee, 150 and larger, \$1.

Winesap, Newtown: Extra Fancy, \$1.50; Fancy, \$1.40; Cee, \$1.20.

Stayman, Winesap: Extra Fancy, \$1.40; Fancy, \$1.30; Cee, \$1.10.

Movement of Red Cheek Pippin, Salome and late sundries is not permitted until authorized by the Board. No pools will be opened for Cox Orange, Tolman Sweet or Golden Russet.

Revision Of Jonathan Prices

The Board reports that Jonathan are running much more to very large sizes than was anticipated. Because of this, it was necessary to revise the pool bases in order to get quick clearance. The following revised prices show a drop of ten cents a box: 138 and larger: Extra Fancy, \$1; Fancy, 90c; Cee, 80c; No. 3, 70c; loose: Extra Fancy, \$25; Fancy, \$22.50; Cee, \$20.

Shippers are authorized to credit buyers with the difference between the foregoing prices and pool bases previously set on all shipments made since the beginning of the movement of this variety.

VERNON SCHOOL GIRL HAS INFANTILE PARALYSIS

Schools And Theatre Closed And All Public Gatherings Cancelled

The report reached Kelowna yesterday that Vernon has a case of infantile paralysis, the patient being a school girl, daughter of Mr. J. Coals, of Okanagan Landing, who attends school in Vernon, travelling to and from the city by bus and thus contacting with other children.

Strict quarantine measures were immediately taken in Vernon, where the schools and the theatre have been closed and all public gatherings cancelled. Dr. Ootmar warns visitors to the northern city to exercise every care and advises not to travel to Vernon unless it is absolutely necessary, although, as he points out in an interview elsewhere in this issue, a city properly quarantined offers little danger.

From whom the Okanagan Landing girl contracted the disease is not known. The fact that she has been mixing with other school children, some of whom may be in danger of receiving the infection, is causing alarm in Vernon.

SHIPPERS' NEW CARTEL PLAN TO OPERATE

Organization Will Function In Similar Manner To Cartel Of 1932 But Under Fruit Board

The shippers' Cartel scheme outlined in last week's issue of The Courier came into being at a special general meeting of the Okanagan Stabilization Board held in the Board of Trade Rooms, Vernon, yesterday, when instructions were given for the winding up of the affairs of the Board, which will have no assets to distribute but will break even when the office furniture, which may be purchased by the Tree Fruit Board, is disposed of.

No name has yet been given to the new organization, which includes commercial shippers, Associated Growers and grower-shippers. It was decided to operate four Cartels for percentage releases—one for McIntosh, one for Jonathan, one for Newtown and Winesap and one for other winter apples. Percentage releases for domestic have been recommended as follows: McIntosh 50%; Jonathan, 25%; Winesap and Newtown, 10%; other winter varieties, 25%.

When these percentages of the total crop have been shipped, further releases will be authorized by the Local Board.

The committee elected is composed of Major M. V. McGuire, Messrs. A. P. Hayes, E. J. Chambers, F. W. Pridham (grower-shippers' representative)—the Shippers' Advisory Council to the Tree Fruit Board—and Mr. O. W. Hembling, member of the Board, who (Continued on page 8)

BOY CROWN PRINCE IS PROCLAIMED KING

Accession Of King Peter Marked By Scenes Of Sadness And Silence

BELGRADE, Oct. 11.—The boy Crown Prince Peter was proclaimed King of Yugo-Slavia today by both Houses of Parliament sitting as the National Assembly amid scenes of sadness and silence.

HUGE GATHERING AT EUCHARISTIC CONGRESS

BUENOS AIRES, Oct. 11.—More than seventy-five thousand children congregated today for communion before a 105-foot crucifix in Palermo Park, the centre of the thirty-second international Eucharistic Congress. Four cardinals and two hundred priests officiated.

SAVINGS BANK INTEREST DROPS TO TWO PER CENT

OTTAWA, Oct. 11.—Interest on savings deposits in all Canadian banks will be cut to two per cent, starting November 1st, according to an announcement by the Department of Finance today.

JAPANESE SHIP IS SEIZED BY AUSTRALIA

Crew Held On Charges Of Shell Poaching

SYDNEY, Australia, Oct. 11.—A Japanese ship was seized by Australian authorities in New Guinea waters yesterday and her crew of twenty-five men arrested on charges of shell poaching.

A ROAD POLICY FOR BRITISH COLUMBIA

Brief Prepared By Vernon Board Of Trade At Request Of Economic Council

The subjoined brief on the subject of road surfacing and maintenance for British Columbia has been prepared by the Vernon Board of Trade at the request of the Provincial Economic Council, and has been submitted to the latter body.

A programme embracing the hard surfacing of all main highways should be undertaken immediately.

The tourist business is today recognized as third in importance in the Dominion, so important that the Dominion Government has established a Tourist Bureau as a Department of Government.

British Columbia is exceptionally well situated to benefit from this important and ever increasing business, by reason of its unrivalled scenic and other attractions and its juxtaposition to the Pacific Coast States of America.

In the Pacific Coast States, however, all main highways are either paved or hard surfaced and motorists who are accustomed to such roads will not travel in any numbers over gravel roads, such as we have in British Columbia.

When our gravel roads, for reasons of economy which we believe to be false, are allowed to deteriorate to the present deplorable condition prevailing on the Interior highways, the highly profitable tourist business is dealt a blow from which it will be hard to recover.

As a first step towards a planned system of hard surfaced main highways, we propose that the highway from the border at Osoyoos, through the Okanagan Valley, via Salmon Arm (Continued on page 8)

BEER PLEBISCITE IS POSTPONED FOR A WEEK

Kelowna Will Vote On The Beer Question October 18th

Returning Officer Fred Tutt has been definitely advised that the beer plebiscite will be postponed until October 18th, one week later than the original date set.

The postponement was requested by Dr. G. A. Ootmar, City and District Medical Health Officer, due to the quarantine for infantile paralysis. The Returning Officer is still in quarantine, which will be lifted on Sunday next.

The poll will be held in the I. O. O. F. Temple.

QUARANTINE SOON TO BE LIFTED

Provided No Fresh Case Occurs, All Children Over Ten Will Be Given Freedom Friday

No new cases of infantile paralysis have developed in Kelowna and district. The last two patients were discharged from the Isolation Hospital last week and are now convalescing at home, where they are making good progress towards recovery.

As no fresh case occurred, Dr. Ootmar, Medical Health Officer, permitted all youths under 18 years of age who are employed to return to work on Tuesday. The visiting supervision of the children by the nurses, Mrs. Grindon, Miss Miles and Miss Gore, ended on Saturday. However, control of some contacts of the last case to occur will continue.

On Friday, October 12th, all children over 10 years of age will be out of quarantine, and on Sunday all quarantine, except for one family in the city and one in the country, will be lifted.

On Monday next, all schools in the city and district will be re-opened. Dr. Ootmar requests parents not to let their children break quarantine. "We will lift the quarantine gradually with the purpose of seeing that no infection occurs," he states. "I count on everybody to act in accordance with the regulations."

SILVER AND GOLD RISE IN LONDON AND NEW YORK

NEW YORK, Oct. 11.—Silver struck a new high mark here today, gaining to 53%.

LONDON, Oct. 11.—Gold reached a new high here at 143s. 3d. today.

ANOTHER VICTIM OF MARSEILLES MURDER

MARSEILLES, Oct. 11.—Yolande Paris, a 14-year-old girl wounded by stray bullets in Tuesday's assassination, died today, bringing the total number of deaths to six.

HAUPTMANN TO FIGHT AGAINST EXTRADITION

NEW YORK, Oct. 11.—Counsel for Bruno Richard Hauptmann, ordered to stand trial in New Jersey for the kidnapping and murder of the Lindbergh baby, announced today that he will fight extradition from New York.

Agents of the Department of Justice stated today that \$45,000 of the \$50,000 ransom paid by Colonel Lindbergh has been traced to Hauptmann.

PARTIAL REFUNDS MOTOR-VEHICLE LICENCES

Method Of Procedure To Obtain Rebate For Cars Not Operated In Winter

By an amendment to the "Motor-Vehicle Act," passed in 1933, motorists living east of the Cascade Mountains, who do not operate their cars and trucks during the late fall and winter season, may obtain a refund of part of the licence fees paid, under certain conditions.

A refund equal to one-third of the annual licence fee is allowed on licences surrendered on or before the 31st of October, and a refund of one-quarter, on licences surrendered on or before November 30th.

To obtain this refund the registered owner of the car or truck, must forward to the Commissioner of B.C. Police, Motor Branch, Victoria, a "Notice of Surrender of Motor-Vehicle Licence," which may be obtained at the Government Office. This form must be fully completed, and accompanied by the current motor-vehicle (dashboard) licence. At the same time the corresponding licence plates, must be forwarded to the same address, fully prepaid.

Refunds will only be made from the Motor-Vehicle Branch, Victoria, and notice of surrender, licence and plates must be sent there direct by the registered owner.

Refunds will not be allowed in the following cases:

1. Where the licence was issued west of the Cascades, and the owner now resides east of the Cascades.
2. When the car was licensed west of the Cascades and later sold or transferred to a person living east of the Cascades.
3. When the car was licensed east of the Cascades, and later sold or transferred to another person who lives east of the Cascades.

For administration purposes, the Kelowna district is east of the Cascade Mountains.

FRENCH POLICE HUNT TERRORISTS

PARIS, Oct. 11.—French police, stung by the assassination of King Alexander and M. Louis Barthou, French Foreign Minister, today arrested two alleged terrorists, shot it out with a third who escaped and hunted intently for two more accomplices. They stated that the terrorist gang was affiliated with Petrus Kalemien, assassin of the King.

Police at Fontainebleau arrested a man named Chalmy at the railway station. It was Chalmy who accompanied Kalemien to Marseilles. Chalmy slipped out of their hands and ran into a forest there. The police shot at him but he made his escape. The Fontainebleau police had two other suspects in their hands yesterday, but they also got away, only to be seized today, however, in attempting to cross Lake Geneva. Police stated that they believed the men to be the same pair who had accompanied Kalemien to Paris previous to the fatal trip to Marseilles.

JUGO-SLAVS RIOT AGAINST ITALY

That Country Blamed As Source Of Plots Against King Alexander

BELGRADE, Oct. 11.—A mob today stoned the Italian consulate at Sarajevo, the city in which the Archduke Franz Ferdinand was assassinated, the primary cause of the outbreak of the Great War. Police finally dispersed the rioters with difficulty and only after they had also stoned the Croatian Society's building.

The plant of a Croat newspaper at Osijek, Yugo-Slavia, was sacked by a mob.

LJUBIJANA, Yugo-Slavia, Oct. 11.—Anti-Italian riots broke out here today after a meeting at which speakers alleged that all the attempts against the life of King Alexander, including that made at Zagreb last March, had been financed and prepared in Italy.

HANDLING OF GARBAGE IS UNDER FIRE

City Council Takes Action On Complaint As To Carelessness In Conveyance Of Waste

Owing to the Thanksgiving holiday, the regular session of the City Council was held on Tuesday evening, with all the members present.

A letter from Dr. J. W. N. Shepherd, for a number of years a former alderman, drew attention to what he emphasized as the distribution, instead of the collection, of garbage in the city through carelessness in its conveyance to the Nuisance Ground. The letter stated in part:

"It is really a disgraceful condition to have the garbage of the city back yards collected and a large portion of each load distributed over the length and breadth of Pendozi Street on its way to the Nuisance Ground."

"I am sure you will agree with me that this might be a good way to broadcast the germs of many diseases."

"I daresay there are other streets that suffer in the same way, but, living on Pendozi Street, we get the principal benefit."

Dr. Shepherd said he had taken the matter up repeatedly with individual members of the Council without effect, hence he now addressed them collectively in the hope that some action would result.

After discussion of the subject, in which the justice of Dr. Shepherd's criticism was admitted, it was decided to obtain a cover of some kind for the garbage truck and to instruct the garbage collector to keep the vehicle covered while in transit to the Nuisance Ground.

Sale Of Lots

Two By-Laws for the sale of lots were introduced and each received three readings, No. 628, disposing of Lot 20, Block 7, R.P. 1306, to Mrs. Edith May Colton for \$75.00, and No. 629, selling Lots 14, 15 and 16, R.P. 413, to Mr. G. W. Ward for \$225.00.

Purchase Of Securities

Purchase of securities for the Sinking Fund was formally approved as follows: from Wood, Gundy & Co., Ltd., Province of Alberta six per cent bonds of par value \$1,500, due Nov 1st, 1936, at 101 and accrued interest; from A. E. Ames & Co., Ltd., University of Alberta 6 1/2% bonds, guaranteed by the Province of Alberta, of par value \$1,000, due July 1st, 1936, at 101.875 and accrued interest, and Province of Alberta 4 1/2% bonds of par value \$1,000, due June 1st, 1937, at 98.50 and accrued interest.

Permit To Erect Carpenter's Shop

The application of Mr. J. Enns for permission to erect and operate a carpenter or joiner's shop on the south half of Lots 1 and 2, Block 9, R.P. 462, was granted under the provisions of Sec. 17 of the Fire Prevention By-Law, 1927.

Claim Allowed For Poultry Destroyed

In connection with the destruction of ten of his chickens by dogs as reported at the previous meeting of the Council, a claim for \$8.00 compensation under the Sheep Protection Act was received from Mr. E. E. Wahl, and, as the amount was considered reasonable, it was passed for payment.

Grant To Toc H

To enable the Toc H Branch to meet their City taxes, payment was authorized to them forthwith of the grant of \$50 provided in the estimates in aid of the Boys' Club operated by them.

Old Fire Truck Sold

After nearly a quarter of a century in the service of the City, the old Cadillac chassis which constituted Kelowna's first piece of motor fire-fighting equipment passed to other ownership with sanction of its sale to Mr. A. H. Flintoft for the modest sum of \$25.00.

Report On Municipal Convention

The City Clerk read a brief report upon the recent convention of the Union of B. C. Municipalities, held at Kamloops, which Mayor Trench and he attended as delegates from Kelowna, and also submitted the resolutions dealt with during the proceedings.

The other business transacted was chiefly concerned with trade licences, which, as usual, occupied a considerable part of the session.

The Council adjourned until Monday, October 22nd.

BOYSCOUT COLUMN

1st Kelowna Troop

Troop First! Self Last!

Edited by S.M.

Orders for the week commencing Friday, October 12th, 1934:

Duties: Orderly patrol for the week, Oakes; next for duty, Beavers.

Rallies: The Troop will rally at the Scout Hall on Tuesday, the 16th inst., at 7:15 p.m.

It is hoped that the ban will be lifted on the 14th, and as the schools are re-opening on Monday the 15th, we think it is quite safe to call our first parade for Tuesday evening. Should it happen that the ban is not lifted, however, the above parade and duties are of course cancelled.

The members of the Local Association suffered quite a shock when they heard that Mr. D. S. Buckland had had to give up the position of Secretary-Treasurer to the Association, and, needless to say, everyone was greatly relieved when Mr. Jack Brechin agreed to take on the job. During his three years of office Mr. Buckland certainly filled the position well and that is saying a lot, for a secretary's job is never a "snap."

The appearance of the front of the hall has been somewhat improved by the application of a coat of paint, and plans are being made for the planting of some shrubbery, etc., around the entrance. This should make quite an improvement in the general appearance of the place.

Acting Assistant Cubmaster Bill Cross has asked us to announce in this column that the Wolf Cubs will be starting their fall activities as soon as the ban is lifted. Needless to say, we are very anxious to see the Cubs going strong, for it is from this source that we draw most of our members.

Scout Notes Of Interest

The King and Queen were spectators at a recent rally of the Boy Scouts of Edinburgh, held on the beautiful grounds of Dreghorn Castle.

One hundred Calgary district Boy Scouts acted as caddies at Banff during the annual Sun Life Assurance convention.

In co-operation with the local fire chief, Scouts of Woking, England, patrolled the nearby heaths during the summer, guarding against heath fires.

A London Boy Scout troop camping on the Mull of Kintyre, in the western Highlands, held their Sunday services before a crude stone altar in a cave used 1,350 years ago by Saint Columba.

A successfully handled garage fire at Freshwater, on the Isle of Wight, drew attention to the fact that the fire brigade was composed of Rover Scouts. The boys have maintained the brigade for three years.

Harold Webster, winner of the Marathon at the British Empire games, is an active member of the 11th Hamilton Scout Group Committee, and Sylvanus Apps, winner of the pole vault, was one of Ontario's first Lone Scouts.

A unique camp "toggle"—a slide for wearing on a Scout neckerchief—was presented by the Ontario Minister of Lands and Forests to boys attending this year's Scout Reformation Camp at Angus. The toggle comprises three pieces of wood—white pine, representing Ontario lumbering, Scotch pine for reforestation and spruce for pulp and paper—all strung on a buckskin thong, symbolic of Ontario wild life.

A local man says he hasn't accomplished anything in a business way since it got noisy about that he was in the market for a new car.

PRINCE OF WALES TO BE BROTHER'S BEST MAN

H.R.H. The Prince of Wales, now forty years of age and apparently a confirmed bachelor, will officiate as best man at the marriage, on November 29th, of his brother, Prince George, to Princess Marina of Greece. The above photograph was taken shortly before the Prince of Wales left England for a holiday at Biarritz.

TEA TIME

By Barbara S. Brooks

A Canadian hostess said to her American guests: "Shall we go to the bank for tea?" To their delight, the "bank" turned out to be, not an impressive stone building, but a grassy terrace overlooking a river where tea was served in a delightful summer house.

Tea time is observed all over the world and is probably the part of the day most enjoyed by friends who get together for a social hour. Different customs prevail in different countries, but the spirit of hospitality and good cheer is the same whether the service be simple or elaborate. The tea itself is made according to the hostess's taste and hot water provided for guests who wish it weaker. There is usually a choice of lemon and cream; sometimes cloves are added for spice; there may be orange slices and wedges of candied pineapple for those who like added flavours.

The tea accompaniments should include both plain and sweet. There is nothing better than thin bread and butter, salt wafers or crisp toast for those who are avoiding sweets. For others, a supply of little cakes, cookies or fruit bread will be desirable.

This recipe for Banana Bran Bread is good because the loaf will keep moist for days and can be sliced and buttered as needed.

BANANA BRAN NUT BREAD

1/2 cup shortening.
1/2 cup sugar.
1 egg (well beaten)
1 cup bran.
1 1/2 cups flour.
2 teaspoonsful baking powder.
1/2 teaspoonful salt.
1/2 cup chopped nut meats.
1 1/2 cups mashed bananas.
2 tablespoons water.
1 teaspoon vanilla extract.
Cream shortening and sugar well. Add egg and bran. Sift flour with baking powder, salt and soda. Mix nuts with flour and add alternately with mashed bananas to which the water has been added. Stir in vanilla. Pour into greased loaf tin. Let stand 30 minutes and bake in a moderate oven (375° F.) one hour. Let cool before cutting.
Yield: 1 loaf (8 1/2 x 4 1/2 inches).

Simple sandwiches are always welcome. Cream butter with honey and spread thin slices of white bread. A delicate filling is made by creaming butter with anchovy paste, mustard, horseradish, or chopped parsley. Some

other savoury fillings are chopped celery moistened with mayonnaise; creamed butter, mint leaves and chopped pimento; chopped pickles or olives with mayonnaise; ground cheese and dried beef moistened with tomato puree.

The cookie jar plays its part in the well-dressed tea. The recipe for Date Crunch Cookies is something different and delicious.

DATE CRUMB COOKIES

1/4 cup butter.
1/2 cup sugar.
1 egg (beaten).
1 cup flour.
1 cup soda.
1/2 teaspoon baking powder.
1/2 teaspoon salt.
1/2 cup sour milk.

CRUMBS

1/2 package pasteurized dates.
1/2 cup orange juice.
1 cup corn flakes, crushed.
Cream butter and sugar and beat in egg. Sift dry ingredients and add alternately with milk to first mixture. Spread very thin in a buttered tin (8" x 12" is suitable size).

Cook dates with orange juice until softened. Spread over the dough. Cover with crushed corn flakes and bake in a hot oven (400° F.) about 25 minutes. Yield: 24 small squares.

CORN FLAKE KISSES

1/2 cup sugar.
1 egg.
1/2 cup shortening (melted).
1 cup flour.
1 teaspoon baking powder.
1/2 teaspoon salt.
1/2 cup nut meats, chopped.
1/2 package dates, cut fine.
1 cup corn flakes.

Combine sugar, egg, and shortening. Sift dry ingredients, and add, together with the remaining ingredients. Drop from a round-bowled teaspoon and flatten the tops. Bake in a hot oven (400° F.) about 10 minutes. Yield: 6 dozen, one inch diameter.

BRAN GINGER SNAPS

1/2 cup shortening.
1 tablespoon brown sugar.
1/2 cup molasses.
1/2 cup bran.
1 1/4 cups flour.
1/2 teaspoon salt.
1/2 teaspoon soda.
1 1/2 teaspoons cinnamon.
1 teaspoon ginger.
1/2 teaspoon cloves.

Cream shortening and sugar. Add molasses which has been heated to boiling. Stir in bran. Sift dry ingredients, add, and mix well. Chill thoroughly in refrigerator. Roll dough very thin, cut into rounds, and bake in a hot oven (400° F.) about 7 minutes. Yield: 5 dozen, 2 inches in diameter.

LIBERAL CONVENTION POSTPONED INDEFINITELY

Reeve W. R. Powell, Of Summerland, Will Not Stand For Nomination

Due to the infantile paralysis scare, the Liberal nominating convention slated for Thursday last at Penticton has been postponed indefinitely.

Reeve W. R. Powell, of Summerland, whose name had been prominently mentioned for the nomination for candidate in the next federal election, stated last week that he would not accept the Liberal ticket. Reeve Powell was defeated by Dr. J. Allen Harris, M. L. A., at the Liberal nominating convention for a South Okanagan candidate here last year.

It is also stated that G. G. McGeer, M. L. A., who had been mentioned for the federal nomination, has refused to stand in Yale.

A BATTERY RADIO with Electric-Set PERFORMANCE

Here is the great invention every unwired home has waited for! Real electric set performance—tone quality, distance, ease of operation—and no more recharging of batteries!

The Air-Cell Radio will do everything that the finest electric set will do. It has been brought about by the invention of a marvelous new source of power—the EVEREADY Air-Cell "A" Battery. This battery breathes air and re-energizes itself for at least 1000 hours, which at 3 hours a day is almost a year's service in the average household.

Do not confuse the new Air-Cell Radio with the old type battery sets—Air-Cell Radio is new from the ground up—now being built by every leading radio manufacturer specially for Air-Cell performance.

Ask your dealer to demonstrate. Your interest will be well repaid.

Make these 3 tests

YOU'LL KNOW WHY ST. CHARLES EVAPORATED MILK IS BETTER

TRY THIS: Open a can of St. Charles Milk. Note the creamy color—the smooth consistency—the pure fresh flavor.

TRY THIS: Have a cup of coffee "creamed" with St. Charles. It blends so smoothly, tastes rich and fresh. And saves you money.

TRY THIS: Make mashed potatoes with St. Charles Milk. That pure fresh flavor gives greater deliciousness.

Why is St. Charles Evaporated Milk different . . . better? The reason begins way back on the farm where it comes from! Cows, barns, milkers, equipment are carefully inspected. And when the milk arrives at the spotless Borden plants, tests are made for flavor, purity, richness and body—the most rigid tests ever evolved in the industry.

That's why—for your coffee, or your cooking, it pays to insist on St. Charles.

It's Better—And you can prove it.

GLENMORE

Church services will be resumed on Sunday.

Miss Betty Snowsall, of the staff of the Essondale Mental Hospital, is spending her holidays with her parents, Mr. and Mrs. E. Snowsall. She will return to her duties on Saturday.

Bert Hume, Clarence Hume and Archie London found a "Black Widow" spider in the bush. By careful manipulation they managed to bring it home alive, where others were able to identify it as the genuine insect. As far as we know, this is the first one found in Glenmore.

The end of this week will see the end of the picking in practically all the orchards. Most of the crops are up to estimate, a few running slightly over. In most orchards the codling moth is reported as very little better than last year, although a greater fight has been put up against the pest by means of spraying. One orchard was heard to have only two per cent of culls, but such a record is very unusual. Most growers are in favour of putting on five sprays, although a few declare four to be sufficient, provided they are put on thoroughly, and that it is possible to get them on at exactly the right time. These five do not include the dormant spray for scab, blister mite or oyster shell. The calyx spray is the chief one whose value is doubted. Scraping and banding the trees as an additional preventative is advised. It is generally agreed that this year the climate has been particularly favourable to the pest, and it is hoped that next year's war against them will be more successful.

OKANAGAN CENTRE

An exceptionally short packing season is nearly finished at the V. F. U. house here. The small grader was closed down before the end of September, many of the employees consequently being laid off. Jonathans were all off the trees the first of the week and with the exception of a few acres of the latest varieties the remainder of the crop is in boxes.

A special meeting of the local C. C. F. club is posted for Friday evening at the home of Mr. and Mrs. H. Macfarlane, when a full attendance is earnestly requested.

Mr. E. Applethwaite, of Nelson, a life-long friend of Mr. N. H. Caesar, was the guest for a week at the "Sun Dial" leaving on Tuesday last, when Mr. and Mrs. Caesar motored him as far as Kamloops on his way to the Coast.

The regular monthly meetings of the Women's Institute will be resumed after a vacation of three months with a meeting on Thursday, the 18th, at 2.30 p.m. at the Community Hall. The directorate is planning to concentrate the activities of the society on social service work for the remainder of the year, in view of the great need along that line.

GOVERNMENTS AND BUSINESS CONTROL

There is ample evidence among the nations of the world, particularly within the British Empire, of the growing importance of the State in controlling business. New Zealand has exercised control of the marketing of farm products for more than a decade through the Meat Export Control Act (of 1921), the Dairy Products Control Act (1923), Fruit and Honey Control Acts (1924), Kauri Gum Export Control Act (1925), and the Wheat Purchase Board (1933). In Great Britain the set-up for marketing is found in the type of co-operation provided under the British Marketing Acts of 1931 and 1933. This form of organization, it may be said, developed in Queensland, Australia, and took its first form in the Wheat Pool Act of 1920, which in turn was followed by the Primary Products Act of 1922. In the United States the Agricultural Adjustment Act has been in force since early in May, 1933, and Canada has just brought forward her Natural Products Marketing Act.

"The demand for such control" says the Economic Annalist, "arises in part out of the chaotic conditions of the depression and also is an expression of the necessity of adapting business to meet the requirements of society. We are still groping about for an effective means of increasing business efficiency. In so doing we must be careful to preserve the good points of business organization as we have known it, and to add to it such social control as is necessary to protect the interests of the primary producer, and those of marketing agencies which are capable of efficiently rendering the services required by consumers."

The old-fashioned woman who used to swing the broom with both hands now has a daughter who can swing the steering wheel with one hand.

YOUNG PEOPLE OF UNITED CHURCH

(Contributed)

Last Sunday evening, Alex. Hall, of Victoria, addressed an interested group of Young People on "Civic and Social Economy in Relation to Christian Service." A number of former members have found their way back to the meetings. We hope they'll carry on and bring back some of the other old-timers.

Alex. outlined briefly some of the reasons for the chaotic conditions of the present-day world, stating that he believed that a large factor is the widespread backward swing to an intensive and in many cases militant nationalism.

It is more than ever the duty of young people to interest themselves vitally in the question "What contribution may I make to the service of mankind?" The Christ-life has never been an easy one, and is today harder than ever before, in some respects at least, but the challenge of Christ's teachings comes to us more strongly than ever, while His help is always with us if we are willing to avail ourselves of it.

Alex's pleasing personality, his ease in speaking and his apt use of illustration certainly captured the interest of the Y.P., and they hope to be able to hear him again before long.

Next Sunday there is to be an illustrated lantern lecture on the mission work in Honan, China. Remember how you enjoyed the lantern lectures last year? This year they are going to be still better. The older people are invited to meet with the young people next Sunday evening in the Church Hall, after the evening service, join with the Y.P. in a few rousing hymns, and learn with them a little more of the very interesting story of United Church Missions.

ELLISON

Among those taking advantage of the long week-end were Mr. and Mrs. E. K. Evans, who spent the holiday at Beaver Lake and report that the fishing was good.

Most farmers are still too busy to take the time off to go hunting, but all who are devotees of the scatter gun are looking forward eagerly to next Monday afternoon, when the pheasants, partridges and quail will be open. Birds are plentiful and strong, so sport should be good on the opening day. Just a reminder to those who will be out in somebody else's place to respect the other fellow's property, and where permission is asked it is very seldom refused.

We are glad to know that Miss Conroy, who has been laid up with a badly poisoned hand, is now making a good recovery.

Mice are reported to be plentiful in the orchards again this fall, and if no protection is provided for small trees much damage may result. Tar paper banding is fairly effective but the removal of these vermin by the setting out of poison oats is most effective and advisable. The spray charts from the Department of Agriculture give a very effective poison bait.

Miss Vernier has been enjoying a few days visit from her friend, Miss Carr, of Kamloops, who was the Ellison school teacher some years ago.

For some time past we have been kicking about the condition of the roads, but would now like to register a protest against some persons who use them. Returning home after dark last Saturday, we first encountered a flock of driven sheep and then, in a row, no less than five horse-drawn vehicles without lights. Surely these should be

SHIRLEY TEMPLE IN HER FIRST TITLE ROLE

Baby Star Has Important Part In "Baby, Take A Bow"

"Baby, Take A Bow," coming to the Empress Theatre on Friday and Saturday, introduces 5-year-old Shirley Temple in her first title role. After her overnight success in "Stand up and cheer!" little Shirley has become one of the outstanding personalities of the screen. She has an important part in the picture and is responsible for much of the comedy. James Dunn and Claire Trevor are together again in this picture.

"Operator 13"

As a complete contrast to her earlier light-hearted screen roles, Marion Davies contributes a fine dramatic performance in "Operator 13," the feature for Monday and Tuesday. The picture is based on the Robert W. Chambers novel of the same name. Different from other pictures with war time backgrounds, "Operator 13" deals with the most romantic and thrilling phases of the Civil War—the spies.

"Advice to the Lovelorn" and "Midnight Alibi"

No picture in many months promises more laughs or tender irony than "Advice to the Lovelorn," the leading picture on the double bill for Wednesday and Thursday. Lee Tracy plays the role of a hard-boiled reporter forced to conduct an agony column.

"Midnight Alibi" stars Richard Barthelmess in an entertaining picture.

added to the "How to keep from growing old" collection.

When the lights from an approaching car are in one's eyes, it is next to impossible to see any unlighted rig which happens to be between. There is a law which prevents this form of attempted suicide, but for the peace of mind of car drivers it is not sufficiently enforced.

IS YOUR PEACE OF MIND All-Winter WORTH

HOW TO JUDGE GOOD BEER

Taste

EXPERTS recognize superior quality lager beer by many subtleties of flavor. But most of us have not such highly educated palates. We must be guided in our choice, to a great extent, by the reputation of those who offer us their product.

That's why it's a safe guide to buy B.C. Bud. Its delicious flavor and excellent quality is the product of experts of long experience and fine traditions in the art of brewing good beer.

[B.C. Bud is sold at Government Liquor Stores and at Licensed Premises.]

NOTES ON VITAMINS
By C. C. Kelley, Provincial Soil Classification Branch, Kelowna

[Correspondence relating to this article should be addressed to the writer.]

(1) Vitamin A:—(Fat-soluble anti-infective, assimilative). Essential for growth in young animals. Source:—Green leaves of plants (including the carotene of young herbage), animal fats, cod-liver oil, butter, cream, milk.

Vitamin A is very resistant to heat in the absence of oxygen, but in the presence of oxygen is destroyed in about an hour at boiling point. Its total absence causes cessation of—growth, wasting and lowered resistance to infections, it aids the assimilation of essential minerals.

(2) Vitamin B:—(Anti-neuritic). Prevents the occurrence of beri-beri in men and analogous diseases in animals; also requisite for satisfactory development in young animals. It withstands drying for long periods. Source:—Whole meal cereals, dried (Continued on page 6)

Lady Forwards Sum For Misuse Of
G.T.P. Railway Ticket

The Canadian National Railways' of-
fers are richer by the sum of \$34.00, re-
ceived at Vancouver in the form of a
draft on a bank in Madras, India. Refusing to explain the circumstances
surrounding the remittance, the only
explanation given by the lady who for-
warded it is that it arises from the mis-
use of a Grand Trunk Pacific Railway
ticket. Inasmuch as the G.T.P. lost its
identity in the amalgamation of 1923,
railway officials are wondering how
long ago the incident occurred and
whether the sizeable sum includes in-
terest. In any event the offering was
gladly received and taken into the ac-
counts as "conscience money."

THE KELOWNA COURIER AND Okanagan Orchardist.

Owned and Edited by
G. C. ROSE

SUBSCRIPTION RATES (Strictly in Advance)

To all points in Canada, outside the Okan-
agan Valley, and to Great Britain, \$2.50 per
year. To the United States and other coun-
tries, \$3.00 per year.
Local rate, for Okanagan Valley only:
(one year, \$2.00; six months, \$1.25.

The COURIER does not necessarily endorse
the sentiments of any contributed article.
To ensure acceptance, all manuscript should be
legibly written on one side of the paper only.
Typewritten copy is preferred.

Letters to the editor will not be accepted for
publication over a "nom de plume"; the
writer's correct name must be appended.

Contributed matter received after Tuesday
night may not be published until the follow-
ing week.
As the staff works on Thursday afternoon, the
COURIER Office is closed on Saturday after-
noon for the weekly half-holiday.

ADVERTISING RATES

Contract advertisers will please note that their
contract calls for delivery of all changes of
advertisement to The Courier Office by Mon-
day night. This rule is in the mutual inter-
ests of patron and publisher, to avoid con-
gestion on Wednesday and Thursday and
consequent night work, and to facilitate pub-
lication of The Courier on time. Changes of
contract advertisements will be accepted on
Tuesday as an accommodation to an adver-
tiser confronted with an emergency, but on
no account on Wednesday for the following
day's issue.

Transient and Contract Advertisements—Rates
quoted on application.

Legal and Municipal Advertising—First inser-
tion, 15 cents per line, each subsequent inser-
tion, 10 cents per line.

Classified Advertisements—Such as For Sale,
Lost, Found, Wanted, etc. Cash with order;
ten cents per line of five words or less, each
insertion. Minimum charge, twenty cents.
If phoned or charged: fifteen cents per line
of five words or less. Minimum charge,
thirty cents.

Each initial and group of not more than five
figures counts as a word.
If so desired, advertisers may have replica
addressed to a box number, care of The
Courier, and forwarded to their private ad-
dress, or delivered on call at office. For this
service, add 10 cents to cover postage or
filing.

THURSDAY, OCTOBER 11th, 1934

FIRE PREVENTION WEEK

By Royal Proclamation, His Excel-
lency the Governor-General of Canada
has designated October 7th to 13th as
Fire Prevention Week for the special
purpose of arousing the public mind
to guard against carelessness and prac-
tices which may involve the outbreak
of fire, with loss of property and per-
haps of human life.

The proclamation states that it is
shown by authoritative statistics that
the amount of the average annual loss
of insurable property by fire in Can-
ada exceeds forty million dollars and
that more than two hundred and fifty
persons perish each year as the result
of fire; also that at least eighty per
cent of the fires which occur originate
either directly or indirectly through in-
excusable ignorance and neglect and
are therefore preventable, and the ex-
ercise of reasonable prudence and pro-
per carelessness on the part of respon-
sible individuals would reduce the loss-
es by fire in Canada to the compara-
tively insignificant proportions of losses
in other countries. It also points out
that the waste thus occasioned re-
presented in terms of human life, mon-
ey, labour, time and natural resources,
cannot be re-created but is an absolute
and irrevocable loss largely distributed
over the entire population through the
agency of fire insurance, which imposes
an inescapable and burdensome tax
upon industry and thrift and substan-
tially adds to the cost of living.

The proclamation also makes the fol-
lowing recommendations:

1. All dwellings and their surround-
ings be carefully inspected by their oc-
cupants and all conditions likely to
cause or promote the spread of fires re-
moved.
2. All public buildings, stores, ware-
houses and factories be inspected and
cleared of rubbish in order to reduce
fire hazards and maintain health and
safety.
3. All hotels, theatres, asylums, hos-
pitals and other institutional buildings
be inspected and provision made for all
changes necessary to protect the occu-
pants from danger in the event of fire.
4. Fire drills be held for the children
in all schools, for the inmates of all in-
stitutions and the employees in all large
stores and factories in order that a
greater degree of safety may be en-
sured by acquainting the occupants
with the best and most expeditious
mode of exit in time of danger.
5. Special instruction on the subject
of fire prevention be given by the
teachers and by municipal officials in
the schools and that such appropriate
literature as may be made available be
distributed to the pupils.
6. Boy Scout leaders give instruc-
tions to the troops under their control
as to the best means of co-operating
with municipal fire departments in the
prevention and extinguishment of fires
and especially as to the desirability of
qualifying for the Fireman's badge.
7. All legislation and regulations en-
acted or issued by Dominion, provincial
or municipal authorities dealing with
fire prevention be given publicity by
the municipal officials and that, by
public meetings or otherwise as may to
them seem most fit, they endeavour to

impress upon the citizens the national
importance of safeguarding life and
property from loss by fire.

While the closing of the local schools
unfortunately prevents the suggestions
as to instruction of children on the sub-
ject of fire prevention being carried out
this week, there is no reason why the
subject should not be dealt with later.

In the homes and in all other prem-
ises there is no better time, while the
weather is still mild, to examine the
condition of stove pipes and chimneys
in order to prepare for the winter.
Stove pipes oxidize from the inside
from corrosive action of soot or creos-
ote and may be thin as paper yet give
no indication of their condition from the
outside. Such pipes may suddenly give
way during the night with disastrous
results. All stove pipes in use for any
considerable span of time should be in-
spected carefully and lightly tapped all
over to discover weak spots. Long
lines of pipe should be securely wired
together to avoid possible collapse.
Chimneys should be cleaned at regular
intervals, which would save the Fire
Brigade from many unnecessary turn-
outs. A little care taken now may pre-
vent a disastrous loss during the win-
ter.

NEEDLESS ROAD HAZARDS

Our Ellison correspondent very time-
ly draws attention to the hazards of
travel created by disregard of the road
traffic regulations by drivers of horse-
drawn vehicles, which require that a
light be carried after sunset. Such
neglect constitutes a danger not only
to themselves but to others. As ex-
plained by the correspondent, when
two cars approach each other with an
unlighted rig in between there is grave
danger to all concerned. Every farm
possesses one or more lanterns and it is
a simple matter to attach one to the
dashboard and a reflector or lantern
with red globe to the rear of a vehicle.
The trouble involved is so slight that it
is difficult to understand why drivers
take the chances they do in failing to
equip their vehicles with such simple
but effective precautions against col-
lision with possibly serious or even
fatal results.

GOOD POLICING

Kelowna is in the fortunate position
today of having possibly the best po-
lice protection in her history.

Few will now question the state-
ment that it was a wise move when the
City Fathers decided to call in the Pro-
vincial Police. More and more munici-
palities are placing their policing in
the hands of the provincial force, thus
linking up with one province-wide or-
ganization that is better equipped to
maintain law and order than most se-
parate city forces.

So satisfactorily is this system work-
ing out that it is not unlikely that
some day the whole of the Dominion
will be policed by one central force
such as the Royal Canadian Mounted
Police or an amalgamation of the R. C.
M. P. and the provincial forces of the
provinces, all of which would work to-
gether as a unit.

The Kelowna detachment of Pro-
vincial Police under Sergeant MacDon-
ald, with Constable Butler for district
supervision, has proved itself an effi-
cient force and deserves the commenda-
tion of every good citizen.

SOIL FERTILITY

By C. C. Kelley, Provincial Soil
Classification Branch, Kelowna

(Correspondence relating to this article
should be addressed to the writer.)

A fertile soil is one which satisfies
all the conditions of plant growth, sup-
plying adequate plant nutrients, water,
warmth, air for the roots, space for the
roots, free from undesirable substances
or harmful reaction. These factors are
closely linked, especially plant nu-
trients, water supply and soil reaction;
and also soil water, soil temperature
and air supply.

The supply of plant nutrients affects
crop production in two ways. Other
conditions being favourable, the amount
of plant growth is increased with in-
creasing supply of nutrients up to a
certain point. The relationship is not
simple; it can be expressed by two fac-
tors, one being the minimal amount in
the crop of the particular nutrient, and
the other the supply of the nutrient al-
ready present in the unmanured soil.
Some degree of proportionality be-
tween the various nutrients is neces-
sary, but there is no evidence that the
ratios are narrow.

These relationships are much affect-
ed by water supply. In general, nu-
trients are most effective when there is
a good water supply, and the water is
most effective when there is a good
nutrient supply. A good water supply
thus economizes the nutrients, and con-
versely a good nutrient supply econo-
mizes water. For fruit the relation-
ships are somewhat different, fruiting
and growth being in some ways an-
tagonistic. These relationships are im-
portant in irrigation practice.

The second way in which nutrients
affect the plant is to change its com-
position, habit of growth and response
to external conditions, including the at-
tacks of insect and fungus pests.

So long as the proportion between
the different nutrients is such as to
give a normal plant, variations in the
total amounts have but little effect on
composition or habit of growth; the in-
dividual plants may be larger or small-
er, but the material of the plant is not
much affected. As soon, however, as
the proportion of any one element falls
too low, certain characteristic effects

ORCHARD RUN

By R. M. R.

BLACK WIDOW BUNK

All this publicity given the Black
Widow spider is of ephemeral interest.
The dangers of its bite have been laid
on pretty thick. Any big black spider
is capable of making the tender parts
of your anatomy sting, and any bite or
minor wound may assume alarming
proportions if infection develops.

The so-called Black Widow has been
shifting for itself in the Okanagan Val-
ley for a long time. Why all this ex-
citement now? If the mourning lady—
she mourns every husband she eats—
is such a venomous she-devil, why
hasn't she nipped with fatal results
our more objectionable citizens ere
this? I am inclined to think that she
goes about her own business—unlike a
lady, I'll admit—devouring the male of
her own species. More power to her
elbow.

The Black Widow spider described
as deadly is very likely foreign to this
valley. Some of its forefathers, trying
to escape the jaws of its foremothers,
were chased from the tropics to the
temperate zone with the result that all
were so exhausted by the time they
reached here that they lost their poi-
sonous pep.

Anyhow, that's as good a theory as
any.

PLEASING THE PEOPLE

There is an old adage to the effect
that "you can't please all of the people
all of the time." It is one of those
things I like to call a "false truism."
For you can please all of the people
all of the time.

A newspaper or a radio station can do
it. A newspaper can publish news that
pleases all of the people even though
half of the subscribers think that half
of the junk you print should not be
printed or that you do not print enough
about the things in which they are in-
terested. A radio station can do it by
broadcasting stuff that only half of the
listeners think is worth broadcasting.
What is a delight to the eyes and ears
represented by one half is trash to the
other half, and vice versa.

But the fact remains that you can
"please all of the people." For it is
human nature to derive a certain
amount of pleasure, conscious or other-
wise, from criticism. Make a thing
perfect and it is as unpleasant as the
devil.

JOURNALIST IN JAIL

A good place for him, say you. But
you can't keep him there.

Witness the cavortings of Sun Col-
umnist Bob Bouchette, who languished
in the hoosegow one night recently,
when he was given plenty of time to
meditate upon his sins. Bob was ar-
rested for being drunk, an absurd ac-
cusation against a newspaper man. If
they had charged him with being plas-
tered (a more refined term?), they
would have been nearer right.

Anyhow, Bob got off with a plea of
not guilty. The Magistrate, who evi-
dently knows his columnists, is report-
ed to have uttered this gem in ruling that
Bob wasn't drunk:

"This case shows that journalists
sometimes do strange things—perform
actions so peculiar that they might be

are produced on the plant which may
profoundly alter its reaction to external
conditions and its chemical composition,
and therefore its agricultural value.
In certain conditions one of the ele-
ments may thus be in deficiency. Con-
siderable investigation has been made
to discover the effects of these deficien-
cies, and also their symptoms, so that
the agricultural expert might be in a
position to recognize them. Large
excess of certain of the elements rela-
tive to the others also produces charac-
teristic effects, which are being
studied.

In humid regions deficiency of nitro-
gen relative to the other elements is
common, the result of the ready solubi-
lity of the soil nitrates. This reduces
the rate of growth and the total amount
of growth, but otherwise has little effect
on the composition or character of the
plant. Nitrogen deficiency is closely
linked with the organic matter content
and the micro-biological activity of the
soil.

Phosphate deficiency may arise any-
where, but especially on soils derived
from rocks containing little or no ani-
mal remains. It reduces the root activi-
ty of plants and the tillering of cer-
eals, and brings about certain chemical
changes profoundly affecting the qual-
ity of the produce. Phosphate starved
grass is unpalatable to animals, induc-
ing phosphate deficiency diseases.

Iron deficiency is perhaps more com-
mon than is usually recognized. It was
first found in certain New Zealand
soils and traced to a persistent anaemia
of cattle, from which they suffered
greatly and finally died. This was in a
wet region on somewhat acid soil suf-
ficiently light to allow of ready leach-
ing of the iron from the surface layer.

A similar disease is said to occur else-
where and may have the same cause.
Unfortunately, no easily recognizable
symptoms in the vegetation have been
observed, but analysis of the ash at
once reveals the deficiency of iron. A
like deficiency may occur in dry reg-
ions.

NOTICE

To All Fruit Growers

All growers of tree fruits in the area under the jur-
isdiction of this Board who have not yet filled in and returned
to the Board the registration cards sent to them by post,
are now required to do so immediately in order that the
election of a permanent Board may be proceeded with.

Any grower who has not received a registration card
should send a postcard to the Board giving the following
details:—

Name of grower and address; district in which orchard
is situated; number of acres in bearing orchard owned
or rented and the name of the shipper who is to market
the products.

All cards must be in the hands of the Board by October
20th, by which date registration shall be deemed to have
been completed.

BRITISH COLUMBIA TREE FRUIT BOARD,
Kelowna, B. C.

10-1c

popular eatery and you will find sci-
entifically worked out charts plastered on
the wall along with pictures of the Bim
Gump trial. One of the lawyers en-
gaged in this highly imaginary court
case has been given the name of a local
legal light by fellow "dieters."

Two of our professional men on diet
are husky fellows who are getting husk-
ier every day. Their only hope of re-
ducing, as this column sees it, is to
start eating in a big way. But they
scorn the idea of dieting as a means of
retaining youthful figures, having suc-
cessfully dug up fairly convincing rea-
sons to support a contrary contention.
It was the lawyer, as you can guess,
who produced the reasons.

NEW BRUNSWICK'S LARGEST SALMON

Big Fellow Would Not Measure Up
To Some Of B. C. Fish

The largest salmon caught in New
Brunswick this season to date was
landed by a 16-year-old boy from Con-
necticut, Charles D. L. Harrison, of
Green's Farms. It was forty-three in-
ches in length, twenty-five in girth and
weighed over thirty-three pounds. It
was taken with a fly at the mouth of
Clearwater Brook, a tributary of the
Southwest Miramichi River, and was
landed after a battle of two hours and
twenty minutes.

MARRIAGE

Walker—Granger

The Rutland United Church was the scene of a picturesque wedding on Thursday, October 4th, at 8 p.m., when Elsie, second daughter of Mr. and Mrs. C. L. Granger, of Rutland, was united in marriage to Mr. Basil Claude Walker, eldest son of Rev. and Mrs. J. J. Walker, of Kelowna. The ceremony was performed by the Rev. Mr. Walker, assisted by Rev. A. McMillan.

The church was tastefully decorated in mauve and yellow streamers and asters, the colours of the C.G.I.T., of which the bride was a member. The bride entered the church on the arm of her father to the strains of the Wedding March from Lohengrin, played by Mrs. Schell. She was charmingly gowned in a dress of white crepe-back satin. Her veil was held in place by a wreath of orange blossoms, and she carried a bouquet of yellow roses.

The bride was attended by Miss Elaine Scott, as maid of honour, who was dressed in blue chiffon velvet trimmed with white. The bridesmaids, Miss Myrtle McMillan, Miss Alvina Kitsch, Miss Iona Cross and Miss Frances Urquhart, were dressed in mauve and yellow organdie in keeping with the decorations.

The groom was supported by his brother, Mr. John Walker.

During the signing of the register, Miss Beatrice Eutin sang "When Song is Sweet."

The ushers were Mr. Cecil Walker, brother of the groom, Mr. Fred Pharey, Mr. Leonard McLeod and Mr. Peter Ritchie.

The bridal party left the church to the strains of Mendelssohn's Wedding March.

The reception was held at the home of the bride, which was also tastefully decorated in mauve and yellow. In the centre of the bride's table was a beautiful three-tiered wedding cake. On display also were the many beautiful and useful gifts received by the happy couple.

The bride's gifts to each of the bridesmaids was a crystal necklace. The best man and ushers received blue silk ties from the groom.

LOCAL & PERSONAL

Miss A. E. Robertson, of Vancouver, is a guest of the Royal Anne Hotel.

Mr. and Mrs. James Purvis have taken up residence at the Royal Anne Hotel.

Mr. and Mrs. A. McMeans, of Vancouver, are guests of the Royal Anne Hotel.

Mr. H. D. Scully, Commissioner of Customs, Ottawa, was a visitor to the city on Monday.

Mrs. J. Bowes, of the Montebello Hotel, Salmon Arm, was a guest of the Willow Inn over the week-end.

Mr. and Mrs. G. E. Ratcliffe, of Salmon Arm, were visitors to the city last week, guests of the Royal Anne Hotel.

Mr. and Mrs. S. J. Hammitt, of Vancouver, were visitors to the city last week, guests of the Royal Anne Hotel.

Mrs. J. Bertram leaves today by Canadian National for Winnipeg, where she will visit relatives for several weeks.

The Kelowna Girls' Hospital Aid are planning to hold their popular annual Fashion Show on Saturday afternoon, October 27th.

Mrs. N. L. McMahon, of Trail, arrived in the city on Monday to spend a holiday with her parents, Mr. and Mrs. John Fletcher.

Dr. and Mrs. D. E. H. Cleveland, of Vancouver, returned to the Coast on Tuesday after having spent a week at the Royal Anne Hotel.

The Harvest Thanksgiving service of the Salvation Army has been postponed from Monday, October 15th, to Monday, October 22nd.

Mrs. W. R. Trench returned on Saturday from Vancouver, where she spent a holiday. She travelled by motor car with Mr. and Mrs. J. C. Taylor.

Major E. J. Chambers, of the Department of National Defence, Victoria, was a visitor to the city at the week-end, a guest of the Royal Anne Hotel.

Mr. J. J. Lynn, Assistant Superintendent of the Royal Bank of Canada, and Mrs. Lynn, of Vancouver, spent last week in the city at the Royal Anne Hotel.

Mr. W. B. Hughes-Games, Secretary of the Kelowna Hospital Society, attended the convention of the British Columbia Hospitals' Association held in Victoria last week.

Mr. Vernon Clippingdale, who for the past year has been in charge of the hydro-electric plant of the Wayside Consolidated Gold Mines, has returned to his duties after spending a holiday at the home of his parents on Patterson Avenue.

An illustrated talk on the work of the United Church in the province of Honan, China, will be given in the Church Parlour at the close of the evening service on Sunday, at 8:45 p.m., under the auspices of the Young People's Society. The speaker will be Mr. Phil Kitley. A cordial invitation is extended to young people to attend.

Alterations to the store of the Morrison Hardware Co., Ltd., are now proceeding and are nearing completion. A top storey has been added to the store-room at the rear of the building, the outside staircase between Morrison's and the Robert MacDonald grocery store has been removed to extend the west wall, and the west window has been altered to provide a wider front entrance than formerly.

OBITUARY

Mr. William Barkwell

The death occurred on Friday, October 5th, of Mr. William Barkwell, aged 89 years, 8 months, who passed away at the Kelowna General Hospital two weeks after admittance. He had been in failing health for several years.

The late Mr. Barkwell was born in Port Hope, Ontario. He spent a number of years in Yellow Grass, Sask., where he engaged in farming until the fall of 1919, when he removed to Kelowna, where he had resided ever since.

Besides his wife, he leaves to mourn his loss three sons, Maitland, in Ker-robert, Sask., Oswald and Virgil in Yellow Grass; and one daughter, Mrs. W. Perkins, in Edson, Alta.

The funeral service, attended by Mr. Maitland Barkwell and Mrs. Perkins, was held on Tuesday, at 2 p.m., from the undertaking parlours of the Kelowna Furniture Company to the Kelowna Cemetery, Evangelist Robert Johnston, of Rossland, conducting.

The pall bearers were: Messrs. Albert Burrell, William Copeland, F. Armeau, C. H. Pitt, W. M. Sloan and J. Earl.

Canada exported nearly one hundred tons of frozen beef to Japan during the first six months of 1934 as the result of a movement which started early in the year.

WINS \$10,000 IN SWEEPSTAKE

During the five years she worked at her job as cashier in a Beverly Hills market, Mrs. Katherine Streitz, 28, has handled lots of money, but she took \$10,000 from the Canadian Army and Navy Veterans' Sweepstakes and rang it up for herself. She is shown here as she received her cheque from Sergeant Kenneth Sutherland.

STABILIZATION BOARD HAD LOW COSTS

(Continued from page 1)

erable work. McIntosh had already started to move, "and it was only by loyal and efficient work on the part of the staff that we were able to keep abreast of the movement, while at the same time opening complete pooling and statistical records."

Detailing the various committees formed during the year, the Manager stated that, from the date of appointment of the sub-committee (October 19th, 1933) to which the powers of the pooling committee were delegated, the work was handled with efficiency and despatch. Mr. W. E. Haskins was appointed as grower representative with the right to cast an equal number of votes to those cast by the shippers present, but he was succeeded by Mr. G. A. Barrat after attending three meetings. "In the light of after events, and in view of the judgment rendered by Mr. Justice Murphy," said Major McGuire, "the appointment of growers with voting powers to the various committees was obviously illegal."

During the operations of the Board, circulars covering the following main items were issued to members, to the valley press, to grower associations and to the various departmental officials: promulgation of orders and regulations; pool values and pool standing; movement of crop, domestic and export; storage holdings; percentages of shipments; items of general interest such as export prices, railway rates, values for duty, etc. In addition to the statistical information given in circulars, graphs showing the daily movement of the crop by variety had been maintained at the Board offices for the general information of members.

Repayment of the equalization fund, in full with interest, had been made to all members who contributed.

The report continues:

Railway Rates

"Two main applications have been made to the railways for emergent reductions in railway rates.

"1. In September, 1933, the Board was successful in obtaining a reduction of 18c per 100 pounds on rates to the prairie provinces as well as a reduction of 25c per 100 pounds in the rates to Eastern Canada. The saving to the industry from the above reductions amounted to approximately \$120,000.00.

"2. In August, 1934, the Board was successful in obtaining a sliding scale reduction on rates to the prairie provinces as well as re-instatement of the \$1.25 rate to Eastern Canada. The estimated saving to the industry from the above reductions will be approximately \$100,000.00.

Canadian Horticultural Council
"Membership in the Canadian Horticultural Council was continued by the Board, and, while it was found impossible to send a representative to the annual meeting due to the prolonged sittings of the Supreme Court in Vancouver, your Manager attended the special meeting of the Council at Ottawa in May, 1934.

"Your Manager was reappointed to the Executive of the Canadian Horti-

cultural Council as Chairman of the Transportation Committee.

Empire Fruit Producers Conference, London

"The Board was fortunate in being able to avail itself of the services of Mr. Leo Hayes as their representative at the Empire Fruit Producers Conference in London, and unquestionably it was due to his presence that British Columbia interests were so ably protected.

"The Board contributed \$50.00 to assist in sending Capt. Burrows to the London Conference as representative of the Canadian Horticultural Council.

"Generally speaking, marketing conditions were better than in 1932. The McIntosh crop undoubtedly suffered from the piling of too high a price on the lower grades at the start of the season and, due to this cause, three or four weeks of our best distribution period were lost. After Christmas, 1933, the market was generally receptive and advantage was taken of any chance to raise values.

Litigation

"It is regrettable that very considerable expense had to be incurred in litigation to protect the Stabilization Board agreement.

"It was finally necessary to go to the Supreme Court of British Columbia, and in March, 1934, the Stabilization Board agreement was declared by Mr. Justice Murphy to be illegal on the grounds that it involved a conspiracy in restraint of trade, in contravention of Sec. 496 of the Criminal Code. There were many factors outside the control of the Stabilization Board which militated against a successful verdict, but no good purpose can be gained in enlarging on them in this report.

"Full details of legal expenses are shown in the financial statement, which is attached hereto.

Cost Of Operation

"An analysis of the financial statement will show that the total cost of operation, including expenditures on office equipment and all legal expenses, amounted to \$23,041.11, or a cost per box of .65 cent.

Taking off the assets as detailed in the Auditors Report, namely furniture \$723.19, and litigation costs amounting to \$5,840.24, the net cost of operation amounts to \$16,477.68, or a cost per box of .46 cent.

Distribution Of Crop

The final distribution of the crop was shown as follows: Domestic, 1,405,297 boxes, or 39.7 per cent; export, 1,974,621, or 55.8 per cent; dump, 157,379 boxes, or 4.5 per cent. Total: 3,537,297 boxes.

Analysis Of Movement

The following analysis shows the general distribution of the crop—
TOTAL CROP 3,537,297 boxes.

EXPORT

via Atlantic Ports 1,491,588 bxs.—42.2%
via Pacific Ports 483,033 bxs.—13.6%

NOTES ON VITAMINS

Continued from page 3

peas and beans, egg, yeast, marmite, etc. In cereals, the bulk of Vitamin B is in the germ and a little in the bran. The absence of Vitamin B causes beri-beri after three months. A mere shortage leads to loss of appetite, depraved appetite, weakness, loss of weight or vigour, anaemia, indigestion and nerve malnutrition.

(3) Vitamin C—(Anti-scurvy).

Prevents scurvy.

Source:—Green leaves of plants, especially of the natural order Cruciferae; also potatoes, onions, swedes, fresh fruits. (Dried fruits and vegetables

and preserved lime juice are especially destitute of this vitamin).

Being sensitive to heat, it is readily destroyed by boiling, and at ordinary temperatures is soluble in alkaline solutions.

Absence of Vitamin C causes scurvy after four months. Its shortage produces ill-health, characterized by swollen, muddy complexion, loss of energy, fleeting pains in joints and limbs, especially in legs.

(4) Vitamin D—(Anti-rachitic).

Prevents rickets, cures skeletal diseases, hastens the healing of fractures, promotes normal teeth development and prevents dental decay. (Insufficiency in a mother's diet injurious to the child.)

(Continued on page 8)

HIDING PLACE FOR SOME OF LINDBERGH RANSOM MONEY

In four holes, bored in a piece of timber in Bruno Richard Hauptmann's garage, Bronx, N.Y., police found approximately \$8,000 in bills, which were identified later as part of the \$50,000 Lindbergh baby ransom money. The tiny German automatic pistol, fully loaded, was found in a mortise cut in the timber just below the finger of the man shown holding the weapon.

LETTERS TO THE EDITOR

IN OPPOSITION TO BEER PARLOURS

Kelowna, 9th Oct., 1934.

The Editor,

Kelowna Courier.

Dear Sir,

The Plebiscite in our city on Thursday, Oct. 18th, on the question whether we shall have beer parlours or not, will be an occasion when we shall have to make a serious decision. If only ourselves were involved, the day might not be so important. But I am thinking of our teen age youth and of our boys and of our girls rapidly growing up. They are the pride of our city and the hope of our race. We have tried to surround them with the finest character-building influences, and we have endeavoured to equip them morally, mentally and physically, to worthily take their place in life and to uphold the best traditions of our country. We are proud of the work of our churches and of our schools and we are grateful to those in civic and in other offices who have given thought and effort for the promotion of the highest welfare of our children.

Now, because of all that, I wish I could personally talk with each voter in as kindly and as earnest a way possible about the whole matter of beer parlours and their influence upon our youth. Would a few beer parlours in our city help to make our youth more attractive, more able and more efficient for the serious business of building a life and of making a living? What would the mothers of our children say to you? How would a fond and true father of a growing lad answer you? Honestly, what do you think yourself? In the issue I would sincerely plead with you to think above all else of the sort of men and women we want to send forth from Kelowna. If you think as I think, you will want to give our youth the best chance possible by voting against beer parlours.

I have said little or nothing about the presence of beer parlours in our city. I am sure it is quite obvious that their absence will not detract from the beauty, the safety or sobriety of a city of which we are all proud; while their presence will always be a matter of grave concern to parents, teachers and friends who have the best interests of our city at heart.

It is because of the pride we have in our city and the fond hopes we have in our youth, that I would earnestly urge opposition to the establishment of beer parlours.

I am,

Sincerely yours,

W. W. McPHERSON

FIRST BAPTIST YOUNG PEOPLE

(By M. G. H.)

A typographical error occurred in our write-up last week. The heading should have read, "First Baptist Young People."

At the meeting of the Young People last Tuesday evening, a very vivid and interesting address was delivered by Alex McD. Hall, on the subject, "Possibilities of Peace for the World and for the Individual." The address was keenly appreciated by those present and it was with deep regret that it was learned that Alex, who hails from another beauty spot of B.C.—the Island, is soon to leave our midst.

Next Tuesday, the devotional will be taken by Garnet Herbert, followed by an address from Jack McLeod. With the lifting of the infantile paralysis ban, the fall programme will commence and it is hoped that members will make a special effort to attend. "Come and bring a friend."

Officers for the coming year: President, Edith Wilson; Vice-Pres., Jack McLeod; Secretary, G. Harding; Treasurer, Ruben Pekrut; Social Convener, Gwen Harding; Press-Reporter, Garnet Herbert.

IN BYGONE DAYS

From the files of The Kelowna Clarion and The Kelowna Courier

THIRTY YEARS AGO

October 6, 1904

Sutherland and Stillington advertise Kelowna property at \$100 per acre and "the best bottom land in the Okanagan, with water and under cultivation, at \$50 per acre."

The largest shipment of fruit made during the season is chronicled. It was sent out by Stirling and Pitcairn and consisted of six carloads, including one straight car of pears to Winnipeg and a consignment of apples to Australia. Compare this quantity with the shipments of the present season!

"The Lakeview Hotel has undergone considerable improvement during the past week. A new windmill has been erected and iron piping laid from the lake, so that water will be supplied from a tank in the upper story in future. The hotel is also to be lighted by gas, a gas plant having been installed there a few days ago."

"Last week was a record week for the Okanagan Fruit and Land Co., Ltd., they having disposed of property amounting to \$18,000. Amongst the purchasers were James Harvey and Messrs. Bowes, Bailey, Ball, Chaplin, DeHart, Meikle, Willits and others, all of this town. This particular property is on the south side of Bernard Avenue and was only put on the market on Sept. 26th, so would be purchasers should hurry up, as there are only a few lots left of this very choice land."

TWENTY YEARS AGO

October 8, 1914

"The number of commercial automobiles in the city has once more been added to. This time the Kelowna Steam Laundry is the progressive firm."

"The 102nd Regiment, R. M. R., has been demobilized with the exception of bridge guards on the C. P. R. and a few reliefs stationed at the regimental headquarters."

At a meeting of the Baptist Young People's Society, the following officers were elected for the ensuing season: President, G. R. S. Blackaby; First Vice-President, Mrs. J. B. Knowles; Second Vice-President, Andrew Dalgleish; Recording Secretary, Miss Beatrice Wilson; Corresponding Secretary, Miss F. Duggan; Treasurer, Miss L. Evans; chairman of Membership Committee, Miss Wilson; Chairman of Missionary Committee, Miss Reekie; Chairman of Musical Committee, Mr. S. Wade; Chairman of Social Committee, Mrs. P. Harding; Chairman of Temperance Committee, Mrs. Swerdfager.

At the seventh annual meeting of the Kelowna Hospital Ladies' Aid, reports submitted show a large amount of work done for the Hospital and a very satisfactory condition of finances. The only subject for regret was decline of the membership from over a hundred in 1910 to 49 in 1914. The following were elected to office for the ensuing year: President, Mrs. P. B. Willits; First Vice-President, Mrs. J. W. Jones; Second Vice-President, Mrs. J. C. Switzer; Secretary, Mrs. G. A. McKay; Treasurer, Mrs. H. Newby; Executive Committee, Mrs. Peabody, Mrs. Cameron, Mrs. Millie, Mrs. Burne, Mrs. Haug, Mrs. Ferguson and Mrs. Thayer; Purchasing Committee, Mrs. Peabody, Mrs. Cameron and Mrs. Millie.

Room open Wednesday and Saturday
afternoons, 3 to 5 p.m.

"Are Sin, Disease and Death Real?"
will be the subject of the Lesson-Ser-
mon on Sunday.

The Golden Text is: "The Lord is
our judge, the Lord is our lawgiver,
the Lord is our king; he will save us."
(Isaiah 33: 22.)

Among the citations which comprise
the Lesson-Sermon is the following
from the Bible: "He saith to the sick
of the palsy, I say unto thee, Arise,
and take up thy bed, and go thy way
into thine house. And immediately he
arose, took up the bed, and went forth
before them all." (Mark 2: 10, 11, 12.)

The Lesson-Sermon also includes the
following passage from the Christian
Science textbook, "Science and Health
with Key to the Scriptures," by Mary
Baker Eddy: "Sickness, sin, and death,
being inharmonious, do not originate in
God nor belong to His government.
His law, rightly understood, destroys
them. Jesus furnished proofs of these
statements." (p. 472.)

GUILD OF HEALTH

"Ye shall receive power after that
the Holy Ghost is come upon you."
Acts 1: 8.

Conscious fellowship with God is
the acme of personal wholeness. A
person is not whole, i.e., not in com-
plete personal health and fitness and
spiritual power until his entire being
is in joyous harmony with the creative
Spirit of God. If we are to be success-
ful, healthy Christians, we must be in
frequent communion with the indwel-
ling Spirit of God. If we are to con-
tinue a successful nation, we must call
on the Lord God of Hosts to guide
and direct our national affairs, then
and not till then will there be work
for all, food for all, shelter for all, joy
and peace for all. When we all unite
in listening to the Divine Will, then
will there be life abundant in the earth,
and God's Will be done as it is in
Heaven. "If ye abide in me, and my
words abide in you, ye shall ask what
ye will, and it shall be done unto you."
—St. John 15: 7.

JIM BURT AGAIN HEADS
PENTICTON BASKETBALL

Is Made Prexy For Fourth Consecu-
tive Year

"Jimmy" Burt, for the past three
years President of the Penticton Bas-
ketball Club, was re-elected to office
at the annual meeting held recently.
Jim is a former resident of Kelowna
and member of the Orchard City club.
Jack Parkinson, former member of the
Kelowna senior team, was re-elected
manager. Carson McCord, another
former Kelownian who also played
with the famous Hornets, was elected
Second Vice-President.

Thus has the Orchard City contribu-
ted much talent to Penticton basket-
ball.

LETTERS TO THE
EDITOR

THE BEER PLEBISCITE

Kelowna, B.C.,
October 9th, 1934.

The Editor,
Kelowna Courier.

Dear Sir:—

This letter is written because appar-
ently few people are aware of the
"joker" contained in the form of ques-
tion to be voted on in the beer plebis-
cite on the 18th instant, and whether
one is opposed to the establishment of
beer parlours, or is for them, it is at
least desirable that we all know what
we are actually voting upon.

"Do you approve of sale of beer by
the glass in licensed premises without
a bar under government control and
regulation?" That is the form of the
question which the electors of Kelowna
are asked to vote on. It implies sale of
beer by the glass only, for consumption
in the beer parlour. In that respect
the question as framed is utterly mis-
leading, for the reason that, if the elec-
tors vote in favour of the question as
set out above, it will give to the Liquor
Control Board the power to issue licen-
ces to beer parlour proprietors to sell
beer by the glass for consumption on
the premises and also to sell it by the
bottle to be taken away for consump-
tion in any other place where beer
may be lawfully consumed. In other
words, if the electors vote in favour of
the question as contained in the plebis-
cite, they will have authorized not only
sale of beer by the glass to be drunk in
beer parlours during the legal hours
as set by the Board (in some places
10.00 a.m. to 11.00 p.m. and in others
10.30 a.m. to 11.30 p.m.) but they will
have authorized as well the sale during
such hours of beer by the bottle to be
taken from the beer parlour for con-
sumption. For those who may be in-
terested to know how this anomalous
situation has arisen the explanation is
given in the statement appended hereto.

I may add, by way of confirmation
of the above, that Liquor Control
Board Regulation No. 28, which I have
before me, and which deals with ap-
plications for and licensing and regu-
lation of beer parlours, contains the
form of the beer licence which is issued
to a licensee by the Liquor Control
Board, and Regulation No. 28 specifically
requires that every beer licence
granted by the Board shall be in the
form contained therein. Such licence
authorizes the licensee to sell beer in
the two ways above mentioned. A
copy of that part of the Board's Beer
Licence form dealing with the powers of
sale appears below the explanatory
statement, so that comparison may be
made between the question in the plebis-
cite and the powers of sale given to
licensees.

Yours truly,

T. F. McWILLIAMS.

EXPLANATORY STATEMENT

The plebiscite vote is taken on the
question, "Do you approve of sale of
beer by the glass in licensed premises
without a bar under Government control
and regulation?" This question is
contained in Section 3 of the "Liquor-
control Plebiscites Act" (not the "Gov-
ernment Liquor Act"). Under the pro-
visions of Section 27 of the "Govern-
ment Liquor Act," beer licensees may
be granted by the Liquor Control
Board where, on a vote on the above
question fifty-five per cent. of the elec-
tors vote in favour of it. The form of
the question to be voted on, as contain-
ed in section 3 of the "Liquor-control
Plebiscites Act," and as quoted above,
has not been changed since it was en-
acted in 1923, but the powers of sale
which the Liquor Control Board may
grant to licensees under Section 27 of
the "Government Liquor Act" was
materially enlarged by an amendment
to such section last year (1933). Prior
to 1933, Section 27 authorized the
Board to issue to the applicant for a
licence "a licence authorizing him to
purchase beer from a Vendor, and to
sell by the glass or by the open bottle
the beer so purchased to persons for
consumption on the premises, in ac-
cordance with the terms of the licence
and the provisions of this Act and the
regulations." That meant only sale for
consumption on the premises. By the
amendment made in 1933, the word
"open" was struck out and the words
"or elsewhere" were inserted after the
word "premises," with the result that
the part of the section relating to pow-
ers of sale now reads, "to sell by the
glass or the bottle the beer so purchas-
ed to persons for consumption on the
premises or elsewhere, in accordance
with the terms of the licence and the
provisions of this Act and the regu-
lations." (The "Act" forbids consump-
tion of liquor, including beer, in a pub-
lic place, other than a beer parlour. In
that respect beer taken from a beer
parlour is in the same position as beer
or other liquor taken from a Govern-
ment liquor store. "Person" does not

BETHEL BAPTIST
YOUNG PEOPLE

(Continued)

"Bible Contests" was the topic as-
signed for our meeting last Friday and
a very interesting programme it pro-
ved to be. The Scripture portion read
together was Acts 9: 1 to 31, after
which those present were divided into
two groups and given slips of paper on
which were written many of the key-
words in the account just read. The
leader then read the story, omitting
those words, the contest being to see
which group could first supply the
correct word. It was a very good way
of fixing the incidents of Paul's con-
version in our minds.

This was followed by an observation
game concerning names of common
objects which appear in the Bible, such
as plough, harp, nets, corn, etc. The
next problem was to relate the inci-
dent with which the word was connect-
ed and, if possible, to locate the refer-
ence to it in the Bible. This latter
part was also worked in groups, pro-
viding a cooperation of ideas which
was a great help.

We believe that contests of this na-
ture help to instil in us a desire to
"search the Scriptures" and conse-
quently to increase our knowledge of
them.

This Friday, October 12, we are
meeting at Mrs. McIntosh's home on
Laurier Ave., when we shall continue
our study in Genesis.

WINFIELD

The United Church held their
Thanksgiving service on Sunday after-
noon. The church was very nicely de-
corated with flowers, fruit and vege-
tables.

The Anglican Church have postponed
their Thanksgiving service until the
third Sunday in the month.

Times seem very quiet while the
children are obliged to stay in their
own backyards. It is surprising how
well the ruling has been adhered to.

Packing houses are still in full
swing and have not observed the holi-
day. Fruit picking is being wound up
but some will have over a week's work
yet.

Mrs. White, Sr., has returned to her
home after a fortnight's visit with her
son and daughter-in-law in Vernon.

Mr. John Metcalfe was a passenger
to the Coast on Monday of last week.

Messrs. Ted Robertson and Ed Wil-
tala have returned to Mara after a very
successful picking season.

Messrs. A. Elston and Wm. McSherry
return to their respective homes at
Grindrod and Enderby this week, after
finishing their season of fruit picking.

Mr. and Mrs. Sawatski and family,
who had been residing on the Hoff-
man place during the fruit picking sea-
son, have returned to their home at
Armstrong.

Miss Laura Manning, of Vernon,
spent the week-end with her uncle and
aunt Mr. and Miss Fowler.

include anyone under twenty-one
years of age.) The change made in
1933 gives to licensees a much more ex-
tensive power of sale than formerly
existed. One would have expected that
the form of the question to be voted
upon would have been changed to cor-
respond with the wider powers of sale
to be given, but the change was not
made, with the result indicated, namely,
that a vote for sale of beer by the glass
is a vote for sale of beer by the glass
and also sale by the bottle, as explained
above.

Copy Of That Part Of Beer Licence
Form Relating To Powers Of Sale
"Beer Licence"

"This is to certify that.....

..... of
British Columbia, (occupation), having
made application to the Liquor Control
Board for a beer licence pursuant to
the provisions of the "Government Li-
quor Act," and having paid the sum of
..... dollars, being
the fee prescribed therefor, is hereby
licensed to purchase beer from a Ven-
dor, and to sell by the glass or by the
bottle the beer so purchased to per-
sons for consumption on the premises
hereinafter described or elsewhere, in
accordance with the terms of this li-
cence and the provisions of the "Gov-
ernment Liquor Act" and the regulations
made thereunder."

PEACHLAND

A resolution by Councillor Chidley
which would provide for a uniform
policy in connection with the sale of
reverted lands by the Municipality was
lost at a meeting of the Council held
on Tuesday afternoon. Councillor
Chidley stated that some such policy
was followed in other places. This
motion provided that 40% of the tax-
able value of the land should be asked
for every parcel of land, with one-
third of the price to be paid as an
initial payment. This received sup-
port from Councillor Bradley but was
lost when Councillors McKay and
Fulks voted in the negative.

A resolution to give Captain Brew
the Garraway property was carried
when Reeve Topham voted in favour
as well as Councillors McKay and
Fulks.

No decision was made in regard to
an offer for the Bryson White place
made by Mr. Lyons. He offered \$300,
with \$50 in cash and guaranteed that
a number of young trees would be
planted each year.

Nine properties were offered at the
Tax Sale on Monday, with eight being
taken over by the Municipality. There
was \$919.32 owing on these eight par-
cels of land.

The impossibility of leaving water
running in the flumes without super-
vision was explained by the water
bailliff, A. Smalls, at the irrigation
meeting on Wednesday evening. It
was decided, therefore, to turn off the
water as the season ended September
30. Some construction work on flumes
is contemplated in the near future.

The diversion ditch is running in
satisfactory style, according to Trustee
C. C. Heighway, who had been up to
the North Fork dam to inspect this
work.

Mr. and Mrs. Watson and family ar-
rived in town on Sunday from the
prairie and plan to settle in Peachland.
They brought with them a carload of
effects, including several teams and
cattle.

G. Fernihough left for Shagnesses
Military Hospital on Tuesday evening.

W. Goudie, of Kelowna, returned on
Sunday to take up the work of logging
for another season.

The Misses Dafeo, of Penticton,
spent a few days at the home of Mr.
E. H. Pierce over the week-end.

At a quiet wedding in the Manse on
Wednesday evening, October 3rd, Con-
stance Adelaide, youngest daughter of
Mr. and Mrs. J. Miller, of Deep Creek,
was united in marriage to Alfred Hu-
bert Higgs, of Cardiff, South Wales,
the ceremony being performed by the
Rev. Frank Chilton.

The engine of Mr. J. T. Long's
motor boat was stolen from his boat
on Friday night last, the third success-
ful theft in recent weeks. It is now
believed that some person or persons
with a knowledge of motor boats on
the lake is making organized raids to
carry off these engines with a view to
taking them down and disposing of
them at a profit.

invaluable for infants, growing
children, and enjoyed by the
whole family.

Canada Starch Sales Co., Limited

Miss Hill, V. O. N., has had a tre-
mendous lot of extra work from it and cheerful and willing spirit.

Some facts to be considered
when voting on
THE BEER PARLOUR PLEBISCITE

1.—Beer parlours have not been demanded voluntarily by Kelowna
citizens. It is an issue raised by profit-seeking interests.

2. The beer parlour proposition is not a matter of drinking merely.
We have our Government Liquor Store. It is a question of departure from
government sale to private sale for private profits. It is a question of private
interests pushing the sale of beer by the glass and by the bottle till 11.00
or 11.30 p.m., with return of the treating system.

3.—The citizens of Kelowna have a justifiable pride in the cleanliness
and general atmosphere of our City Park. It is a place to which we and our
children go for healthful exercise and enjoyment. Before voting, stop and
thoughtfully consider whether the establishment of a beer parlour adjacent
to our park would attract to it those elements and create those conditions
which would increase our pride in it, and, more particularly, whether it would
continue to be the desirable place it now is for our children.

4.—Another factor which all should consider is the relation between
beer parlours and the pleasures of our young men and women, and in parti-
cular, the activities at the Kelowna Aquatic, which is Kelowna's youth centre
during the summer months, and in connection with the dances and other
functions of which great efforts have been made during the last few years
to remove objectionable features. If beer parlours are set up in Kelowna it
will be possible for anyone over 21 years of age, to either go to the beer par-
lours to drink or to buy beer by the bottle and take it away with them, up to
11.00 or 11.30 at night. Seriously consider this angle when casting your vote.

FOR A CLEAN CITY AND HEALTHY COMMUNITY
LIFE MARK YOUR BALLOT AS SHOWN BELOW:

Do you approve of the sale of beer by the glass in licensed premises without

THE ANTI-BEER PARLOUR COMMITTEE.

The Allure of "mystery"

From coast to coast, women who seek the finer items
of dress have acclaimed the new "Mystery" Stocking.

The allure is in its evident high quality, its super-dulness
and mist-like sheerness. These are brought out in
ravishing beauty by its clinging perfection of fit.

The superlative quality of the "Mystery" Stocking is
entirely due to the fact that it is made from "Tensilex"
—a new ultra sheer chiffon fabric originated by
Supersilk. "Mystery" will out-last cheaper qualities.
It will pay you to wear these beautiful stockings

cultural Research, Nelson, N. Z.,
1932.)

AUSTRALIA LAMENTS

THE RABBIT PLAGUE

Time was when there were no rab-
bits in Australia. Then somebody
brought in several pairs and now the
Australians wish they had never seen
a rabbit. It has been estimated recent-
ly that rabbits are responsible for losses
in Australia amounting to \$150,000-
000 per annum. As an asset the rabbit
does not amount to very much, only
\$5,000,000 a year being realized from
the sale of skins and frozen carcasses.
It is estimated that if there were no
rabbits Australia's livestock industry
would advance 25 per cent in carrying
capacity.

GOLF

Mrs. Percival And Mrs. Houblon
Winners Of Competitions

With twenty-nine players entered,
the competitions staged on Tuesday by
the ladies' section of the Golf Club
were highly successful.

Mrs. Percival won the monthly
medal round, and Mrs. Houblon cap-
tured the 9-hole medal. The prize for
the latter event was donated by Mrs.
McClelland.

On Tuesday next, an 18-hole bogey
competition will be played.

A ROAD POLICY FOR BRITISH COLUMBIA

(Continued from Page 1)

and Kamloops to Vancouver, via Fraser
Canyon should be hard surfaced.

We believe that if this were carried
out it would provide a route irresistibly
attractive to the whole population of
the Pacific Coast and an incomparable
round trip of moderate length through
some of the finest scenery which the
Province has to offer, and the value
of which to the Province as a revenue
producing project cannot be over-estimated.

We believe the present to be a most
opportune time to put this work in
hand, because:—

1.—Materials and labour are cheaper
now than they have ever been.

2.—Costs of both of above are tend-
ing upwards.

3.—Work would be provided for un-
employed.

We suggest that funds for the un-
dertaking be provided by flotation of
a loan at a low rate of interest. We
regard it as an essential condition that
the loan should be raised for this specific
purpose and unequivocal guarantees
given that the money so raised would
be used for that purpose and no other,
and that the increase in proceeds of tax
on gasoline and tolls should be definite-
ly segregated for repayment of the loan.

We are satisfied that, if the public
were completely satisfied on the fore-
going condition—that the money would
be applied to the one specific object
of hard surfacing and no other—there
would be no difficulty in selling the
bonds.

We suggest that the work might be
put out to contract on a mileage basis,
and that a condition could be inserted
in contracts that men from unemployed
camps must be employed and at regular
union rates of pay, so long as their
work is satisfactory.

In the event of men proving unsatis-
factory and being discharged "for
cause," they should not be allowed to
return to camps (illness or physical un-
fitness, of course, excepted). This
would have the effect of weeding out
the "won't works."

Under the foregoing plan, we believe
that:—

1. Gainful employment would be
provided.

2. Relief costs would diminish pro-
portionately.

3. A stimulus would be given to
tourist travel, with a revenue increase
beyond calculation.

In regard to maintenance costs of a
hard surfaced as compared to a gravel
road, we have had experience of an
asphaltic mulch road 2 1/2 miles in
length, which carries very heavy traf-
fic.

This road cost, over a three-year pe-
riod, only \$150.00 in maintenance.

A gravel road of similar length, car-
rying much less traffic, cost in the same
period approximately \$2,250.00, or fif-
teen times as much, and with no com-
parison in travelling comfort.

It will be obvious that the saving in
maintenance costs, over a 400-mile, road
would be enormous.

If the increased revenue from tourist
traffic which would inevitably ensue is
added to the saving in maintenance
costs, it will be evident that both the
interest and capital on the loan would
be covered in a very few years.

We have in the foregoing only refer-
red to tourist traffic, having in mind
visitors from the States and other
Provinces in the Dominion. There is,
however, another factor resulting from
the present inferiority of our roads,
viz., the fact that British Columbians
proceeding from the Interior to the
Coast now travel via the States. This
entails further serious loss in revenue
to the Government.

To summarize: We submit that the
hard surfacing of all main highways is
urgently needed.

That the hard surfacing of the high-
way particularly referred to is a busi-
ness proposition of a revenue producing
and expense saving nature.

That badly needed employment
would be provided, with consequent
saving in relief costs.

That no difficulty would be exper-
ienced in raising the necessary money

SHIPPERS' NEW CARTEL PLAN TO OPERATE

(Continued from Page 1)

attended yesterday's meeting. Major
McGuire, appointed by the Board, will
be the Cartel Manager, and will op-
erate from Vernon with a small staff.

The organization of shippers will
function in a manner similar to that
followed by the 1932 Cartel but with
the added advantage of marketing leg-
islation as exercised by the Fruit
Board, which will issue regulations
governing the operations of the ship-
pers' body. An equalization scheme will
be worked, and it is expected that the
Board will immediately issue orders to
all shippers to send their invoices with
bills of lading attached to the Cartel
Committee, B. C. Tree Fruit Board,
Vernon, within twenty-four hours
from time of shipment. This applies to
invoices and bills of lading only for
both domestic and export shipments.
All correspondence should be address-
ed to the Local Board, Kelowna. In-
voices with bills of lading will be for-
warded to the Board by Major Mc-
Guire to have them entered in the
pools, which will be kept in the Board
offices at Kelowna.

Shippers at points on the Kootenay
and Arrow Lakes, at Creston and at
Grand Forks will be permitted to ship
without restriction as to percentages,
but their shipments will enter the gen-
eral pools, it is stated.

Duties Of Cartel Committee

The duties of the Cartel Committee
will be to recommend to the Local
Board what varieties shall be grouped
together for release purposes; to re-
commend the percentages of the total
crop of each variety or group of vari-
eties that shall be released for ship-
ment from time to time on the do-
mestic market; to arrange for the in-
terchange of orders in the event of cer-
tain shippers failing to sell as rapidly as
others, and to set a charge for selling
to be paid by the shipper failing to sell
(refusal to pay such charge will mean
the loss by the shipper of his position
in the percentage release affected); to
recommend penalties for breach of any
regulations regarding percentage re-
leases.

With further reference to percentage
releases, it is agreed that a minimum
of a carload shall be made for any re-
lease, and no percentage restriction will
necessitate a shipper being forced to
move a part car.

Storage

It is proposed that on all McIntosh
shipped after October 1st and on all
later apples shipped after November
1st, storage charges will be allowed to
each shipper at the rate of .05 per
month, or .01 for each six-day period,
from the foregoing dates. Credits for
storage will be deducted from invoices
by the Local Board, thus reducing the
rate at which such invoices will be pool-
ed. Shippers may use cold or common
storage at their own option, and shrink-
age and repacking charges shall be for
the shippers' own account and shall not
enter the pools. If apples are held in
storage at destination, storage receipts
must be filed with the Cartel Commit-
tee and the apples removed from stor-
age only after the Committee has given
consent. Sales of such apples shall
enter the pools in accordance with the
pool bases in effect at the time of re-
moval from storage.

District Representatives Of Board Here

Mr. W. E. Haskins returned yester-
day from the Grand Forks, Creston and
Nelson areas, where he met growers
and shippers and discussed problems
peculiar to their districts. He was ac-
companied on his return by Mr. W. J.
Littlejohn, Creston representative of
the Board, and Mr. C. S. Squires,
Kootenay representative, who have
been joined in Kelowna by Mr. Harold
Birch, the representative for Salmon
Arm, for the purpose of discussing all
problems of the outlying districts with
the Board members. The Cartel ar-
rangement is also being discussed.

Grand Forks Growers Mollified

Prior to Mr. Haskins' trip to Grand
Forks, some growers in that area had
been openly antagonistic to the Board,
but Mr. Haskins is now convinced,
following a satisfactory meeting there
and discussions with growers and busi-
ness men, that a much friendlier feel-
ing than formerly exists between Grand
Forks and the Board, the rulings of
which will be more willingly complied
with in that district.

In the Nelson, Creston and Robson
districts, which he visited, Mr. Haskins

by loan under the method and with the
guarantee suggested.

That the ensuing benefit to the Pro-
vince by way of increased revenue from
the gasoline tax and general stimulation
of business which would inevitably en-
sue is beyond calculation, but indisput-
able.

And finally, that in a very few years
the loan would be paid off and the Pro-
vince have a road which would invite,
rather than repel, travel.

BASKETBALL

Annual Meeting Of Local Club Next
Tuesday

All those interested in this winter
sport kindly take note that the annual
general meeting of the local club will
be held in the Rowing Club rooms on
Tuesday next, at 8 p.m.

Election of officers will take place,
and it is hoped that a large turnout
will be on hand to discuss the very im-
portant problems facing the club this
season.

Those wishing to take referee exams
should get in touch with Roy Hunt at
once.

SOIL FERTILITY

Continued from page 4

ions; possibly some of the fertilizing
effect of sulphur in these conditions
may arise from an effect on the iron
compounds in the soil.

To manganese deficiency has been
attributed a disease of corn, and to mag-
nesium deficiency a chlorosis of to-
bacco.

Potassium deficiency is usually found
only in relation to nitrogen excess.
When the ratio of nitrogen to potas-
sium becomes large the plant is consid-
erably altered; its leaves become very
dark green, liable to die in discolored
patches, liable also to attack by certain
fungi; the percentage of starch or sugar
in the storage organs falls off, and the
percentage of nitrogen compounds cor-
respondingly increases. The grain of
barley suffers in malting quality, the
tubers of potatoes suffer in cooking
quality, and the roots of sugar beet not
only contain less sugar, but yield a
more impure juice.

Calcium deficiency is in a different
category, being closely linked up with
the exchangeable bases of the soil, and
with the whole body of its physical and
chemical properties. It is most liable
to occur in wet regions, where it re-
sults in an acid soil. It may occur in
dry regions, however, especially where
sodium chloride is present, and the so-
dium has displaced some of the calcium.
When this replacement has proceeded
beyond a certain stage the properties of
the soil are drastically altered, making
it unsuitable for many agricultural
crops. This change is of great impor-
tance in irrigation areas, and it is an
important factor in the evil effects of
over-watering.

Ref. Sir John Russell, British Associa-
tion for the Advancement of Science,
Report 1929.

CRITICISM TOO STRONG FOR FRENCH MINISTER

PARIS, Oct. 11.—Under severe cri-
ticism for the failure of the French
police to avert the assassination of
King Alexander of Jugo-Slavia, Min-
ister of the Interior Sarraut resigned
today.

The operating account of the Cana-
dian National Railways shows a better-
ment of \$6,283,746 in net revenue for
the eight months ending Sept. 30th as
compared with the similar period of
last year. Gross operating revenue is
up \$12,888,218.

had satisfactory conversations with
shippers and growers and the Board
representatives.

Growers Should Register

All growers are required to return
their registration cards immediately in
order that the election of the permanent
Board may be proceeded with as soon
as possible. As announced in an adver-
tisement in this issue, cards must be
returned by October 20th, on which
date registration will be deemed to have
been completed.
